#### Flea Prevention

Due to the nature of our Texas weather, it does not get cold enough for long enough for fleas and ticks to be killed naturally. To help keep all of our guests and facility flea free we ask that all of our guests be on a preventative. In the case of a medical allergy a veterinary letter will be required for the exception. Schertz Pet Manor also has a professional spray company out once every two months (60 days) to treat the inside and outside of our pet boarding facility. We strongly recommend a prevention that has an adulticide in it. This will ensure that all stage of the flea cycle are killed.

*Thank you for choosing Schertz Pet Manor as your pets' vacation destination. We hope you are pleased with our services and would appreciate you letting us know how we may better serve you.*
